The childhood memories of being moved and excited by books
The memories of some books that moved and excited us in our childhood are so strong,

that we will remember them as long as we live.

Nothing is more intense in your life than the memories that you were moved and excited

(our lives) (we) (of being)

by some books in your childhood. Because children have vivid curiosities about an

unknown world and full imaginations, they could read books as if they were in the world

of books. When you grow up and face many obstacles, you may sometimes play

unexpected powers based on those experiences.

the world of books
本(书) & 世界

are very imaginative can the stories
and feel (living)
(we/they) (we/they)
(in the world the story they are reading creates)

As I live in a dull city surrounded by concrete buildings where a convenience is all, I

seldom feel the subtle change of seasons listening to the whistle of birds and insects, and

watching the unfamiliar trees. It is natural that more and more people who want to

have an open mind and to make their only life full decide to move to the rural towns

nowadays.

these days

is the from/by sounds/songs or
seeing/looking at plants (quite) richer
feel relaxed precious lives the countryside

When I buy furniture or tools, I make a point of choosing things made of wood.
(as often as possible)

I make a point of choosing furniture and equipments which are made of woods. I feel

comfortable because woods have the calm atmosphere which is unique as living things.

The new state is the best for artificial materials, but that's a start point for woods. As

the time goes by, they become more deep-impressed and beautiful. That's the best

attractive point.

appealing (of using wood)

Artificial materials are at their best when they are new.

goes by deeply-impressive attractive charming most
